

### What is ANZLAA?

ANZLAA is the Australian and New Zealand Laboratory Association Inc.

### Who are its members?

The membership of ANZLAA covers the full spectrum of professional expertise relating to the **care and welfare of animals** used in research in Australia and New Zealand. This includes the provision of daily animal care, technical skill, veterinary support, ethics, regulatory management, training and the supply of equipment and services.

Through supporting a range of activities, ANZLAA aims to promote communication, informed discussion and continuing education among its members as well as the broader community in pursuit of improved animal welfare.

### What are the benefits of memberships?

Membership of ANZLAA offers access to a **unique collaborative community**. Members have access to an Email forum and our regular annual activities of Annual Conference, Animal Welfare Symposium, Tech week activities and multiple travel scholarships. We have made a **commitment** to filming key presentations from conferences and training workshops and providing access to online content on our website

In addition, in the last year the ANZLAA executive have a number of **new initiatives** for our members including ANZLAA CPD scheme (Continuing Professional Development points), developing pathways to Openness Statements across Australia and New Zealand, participated in a national review of Animal Technician training, and built stronger relationships with our International colleagues to support our members.

ANZLAA also offered two new scholarship categories to attend the FELASA triennial congress in Prague and the newly established John Schofield scholarship for an Animal Welfare Officer to attend our annual conference. We have also introduced an "ANZLAA Member of the year" acknowledgement.

The Executive continue to move forward to develop more initiatives to consolidate **better networking, support and training opportunities** for our members.

***Now is the time to join ANZLAA!"***
